The screenshot shows the ASBIS eShop interface. The top navigation bar includes 'my supplier: ASBIS Magyarország Kft', 'my company: ASBIS Enterprises Limited', and user information 'user: Halias Patapovic'. The main content area is divided into 'Supply options' (Stock, Catalog, Promotion, for assemblers) and a search section. The search results show a table of products with columns for Product, Description, Stock, Price, and Q-ty. A 'Product tree' on the left lists various categories like Cooling System, Desktop & Server, etc. The basket summary at the bottom shows 'Reserved in basket: 968,240 HUF' and a table of reserved items. Annotations point to 'Add to basket' and 'Create order' buttons, and a warning icon indicates that products added to the basket are reserved for a few days.
